A. PROGRAM DESCRIPTION

The U.S. Embassy Budapest, Public Affairs Section (PAS Budapest) of the U.S. Department of State announces an open competition for organizations to submit applications to carry out a program for the Academy of Women Entrepreneurs (AWE) 2021 program for participants from Hungary.

The State Department's Bureau of Educational and Cultural Affairs (ECA) has established the Academy for Women Entrepreneurs (AWE), as a program supporting women entrepreneurs around the world. AWE uses DreamBuilder, an online training program for women entrepreneurs that was developed through a partnership between Arizona State University's Thunderbird School of Management and global copper mining company Freeport-McMoRan, which teaches women to create their own business plans, understand how to raise capital, and connect with networks of successful business owners.

Additional information is available at the following link:

<https://eca.state.gov/awe>

Please carefully follow all instructions below.

Priority Region:

Project activities must take place in Hungary and be directed at Hungarian audiences/participants.

Program Objectives:

The goal of the project is to empower women in Hungary to fulfill their economic potential, and in doing so, create conditions for a more stable, secure, and prosperous society. The objective of the project is to engage a maximum of 30 Hungarian women entrepreneurs in an educational program designed to equip them with skills for successful development of their business ideas. The distribution of participants engaged should be a maximum of 5 from Pest county and 25 from the countryside.

The awardee will develop a program aimed at increasing entrepreneurial capacity of AWE beneficiaries that will integrate the DreamBuilder (dreambuilder.org) online course as one of its key components. The program will encompass facilitated viewing sessions that will provide the participants an opportunity to discuss the topics and to network. The modules may be augmented to localize the context, and to accommodate the topics of guest speaker talks.

Applicants are encouraged to build a comprehensive program in support of the skills gained through the sessions, which may include mentorship activities, partnerships with business incubators, speed-networking, and/or pitch competitions. Participants of this program should be comfortable taking a course and completing assignments in the English language. Awardee should be able to demonstrate extensive experience in organizing entrepreneurship or business programs and should have an established network of entrepreneurs, businessmen, and investors throughout the country.

Responsibilities of Awardee:

The awardee will be responsible for recruitment of AWE participants aged between 25 and 45, who have demonstrated interest in developing an entrepreneurial idea, or have recently started a business. The participants should feel comfortable speaking in English, have computer literacy, and be willing to commit up to 7 hours a week for participation in the AWE Hungary 2021. The awardee will promote the call for participants through traditional and/or social media platforms and organizational networks that would maximize the number of women reached. In consultation with the awarding agency, the awardee will determine additional selection criteria beyond the basic eligibility parameters, and devise an application form. The awardee will review and pre-select program participants and in close collaboration with PAS Budapest will organize and conduct final interviews to select the 30 participants and 5 alternates.

The selection process is to be in close collaboration with PAS Budapest, who will approve the methods of application publication and sit on the selection committee for participants.

The awardee will be responsible for structuring partnerships with entities, experts, NGOs, academic institutions for delivery of the program. The awardee will work closely with PAS

Budapest to maximize joint programming opportunities where available and consult with PAS Budapest regularly on progress of the program.

The awardee will be responsible for securing data cards to ensure participants' internet connectivity and to take care of program-related coordination and logistics. The awardee will be encouraged to use the network of American Corners across Hungary as venues, where appropriate, upon prior coordination with PAS Budapest. The awardee will be responsible for adequate staffing of facilitated AWE events and relevant travel arrangements.

The awardee will monitor attendance and participation of AWE beneficiaries, maintain regular communication with them and provide ongoing support and troubleshooting. The awardee will be responsible for timely reporting of the program's progress to the awarding agency, per guidelines and reporting periods identified in the Cooperative Agreement.

The awardee will propose five additional, country-specific fields that would be beneficial for participants. Awardee will recruit, pre-select and select with the supervision of PAS Budapest additional experts to become mentors and trainers of AWE participants. Awardee can contract 10 entrepreneurs to conduct the five additional modules and will be in charge of logistics.

The awardee will execute a comprehensive Monitoring and Evaluation Plan consisting of a series of data collection and assessment activities during the program, and after the program completion to evaluate the effectiveness of AWE Hungary 2021.

Participants and Audiences:

Target audience for the program should be women from geographically diverse areas in Hungary, aged between 25 and 45, with good English skills and computer literacy. The women must have a demonstrated interest in developing a business idea. Depending on the chosen online course, participants may not need to be in business already or have developed a business plan. The participants must be energetic and available to commit up to seven hours a week for studying the course content, discussions, networking and other events as part of the program.

The participants must have access to a computer workstation and stable internet connection for the duration of the program. Data cards/modems will be provided by the program.

The number of participants of the program is 30 women.
